August 2025	<ul style="list-style-type: none"> MultiFund Flexible Income Plan 	Incorrect disclosure of Managed Income	From 31 January 2023, the Standard Risk Measure, asset allocation and range for the Managed Income investment option were incorrectly disclosed. Following a strategy change in 2023, the option now has a lower risk profile and is fully invested (100%) in cash and short-term fixed interest securities.
June 2025	<ul style="list-style-type: none"> Accelerator Personal Superannuation Plan Flexipol Superannuation Goldline Personal Superannuation Plan Personal Superannuation Bond Retirement Security Plan 	Changes to the Guaranteed investment option	<p>Improving retirement incomes - Following a strategic review, we're aligning and uplifting all capital guaranteed investments options offered by the member's fund (the National Mutual Retirement Fund). These changes will help ensure the member's investment remains sustainable, returns are improved, and the retirement balance grows. Our changes aim to generate higher crediting rates over time, while maintaining low volatility in the member's returns, and ensuring that crediting rates will never be negative. For Personal Super Bond members who are in the Guaranteed – Old option, the option will be closing, and we will be moving the balance to the existing Guaranteed option with the same risk/return profile. These changes mean there will be:</p> <ul style="list-style-type: none"> - an increase in the crediting rate applied to the account balance from 1 August 2025, - change to the investment objective and strategy, and - changes to the fees and deductions that are applied to the underlying investment returns of the member's investment option.
February 2025	<ul style="list-style-type: none"> Guaranteed Super Account (GSA) Multifund Flexible Income Plan Multifund Superannuation Bond Retirement Bond RLA Allocated Pension Plan RLA Personal Super Plan 	Increase to Indirect Costs on Investment options	<p>Every year we update the estimated indirect costs for each of our investment options based on the underlying actual costs for the last financial year. It may be expected that these costs and estimates vary between each financial year. These costs are deducted from the underlying assets of the investment portfolio and are reflected in the investment option's unit price.</p> <p>Over the last financial year (ending 30 June 2024), the estimated investment-related costs increased due to transaction costs associated with the replacement of the underlying investment manager(s). The changes were made following a careful review of the investment options with the aim of delivering improved investment performance ongoing value and benefits of scale.</p>

December 2024	Guaranteed Super Account (GSA)	Changes to the product's investment offering	<p>Improving retirement incomes - Following a strategic review, we're making changes to the objective and strategy of the investment option, reductions to fees, an increase in Resolution Life's share of the life policy participating profit allocation and crediting rates, effective 1 February 2025. We're making these changes with the aim of improving returns for members through higher crediting rates, while maintaining their low volatility and the capital guarantee that the rates will never be negative. There will be changes to the investment strategy and fees and costs. The strategy changes include increased allocations to "growth" asset classes such as equities and property.</p> <p>These changes mean there will be an increase in the crediting rate applied to the account balance from 1 February 2025. The crediting rate will depend on the account balance. Please note, crediting rates may increase or decrease at any time without notice but will never be negative.</p>
