What you need to know

Equity Trustees Superannuation Limited ABN 50 055 641 757, AFSL No. 229757, RSE Licence No. L0001458 (Trustee) as trustee of the Super Retirement Fund ABN 40 328 908 469 (Fund) is the issuer of these products. Resolution Life Australasia Limited ABN 84 079 300 379 (Resolution Life) is the administrator of the Fund on behalf of the Trustee.

The information contained in this report is factual information only. It does not contain any financial product advice or make any recommendations about a financial product or service being right for you.

Resolution Life and/or the Trustee do not guarantee the performance, the investment options or a particular rate of return. The repayment of capital is not guaranteed, unless expressly stated. Investments in these products are not bank deposits with Resolution Life or any other company in the Resolution Life Group. Past performance is not a reliable indicator of future performance.

The information in this report is based on information available as at the time of production. Resolution Life does not make any representation or warranty as to the accuracy, reliability or completeness of material in this report nor accepts any liability or responsibility for any acts or decisions based on such information.

Investment type products are subject to investment risk, including delays in repayment and loss of income and principal invested.

Resolution Life is part of the Resolution Life Group and can be contacted via resolutionlife.com.au/aia/help-and-support/contact-us or by calling 133 731.

Quarterly performance report (Super Retirement Fund)

Performance report as at 31 December 2023

About this document:

This document outlines the investment performance for your products within the Super Retirement Fund (SRF) as at 31 December 2023.

This document has been prepared for general information only, not having regard to your investment objectives, financial situation or needs. Because of this, you should consider the appropriateness of the information having regard to your own circumstances and the relevant PDS and/or policy terms and schedule. Before making a decision to act on any of this information, it is recommended that you seek financial advice specific to you. You should seek advice from your taxation adviser in relation to taxation matters.

The Quarterly Performance Report for financial products issued by Resolution Life Australasia Limited (for example, deferred annuity, allocated annuity or investment growth bond products) can be found at resolutionlife.com.au/aia/forms-docs. Go to the 'Super & Investment' page under 'Quarterly Reports'.

PERFORMANCE EXPLAINED

Unit-linked products

How we calculate performance

Returns are net of investment option fees and costs, taxes and charges (where applicable). Fees that are deducted directly from members' accounts (such as administration fees) are excluded when calculating performance returns. Performance is calculated on the change in the withdrawal unit prices for the period ended 31 December 2023, corresponding to the investment timeframe indicated.

Individual net returns

Your individual net return may differ from the returns quoted in this report. Your return depends on the timing of transactions such as contributions, withdrawals, switches or unit adjustments during the period and your mix of investment options.

For the price of units on the dates of any deposits, withdrawals or switches (including any investment options you have switched into or out of), please call us on the phone number provided on your annual statement between 9am and 5pm (Sydney time), Monday to Friday, excluding public holidays.

Past performance is not indicative of future performance

Returns are not guaranteed and past performance is not indicative of future returns. Investments can go up and down and there is no guarantee that one investment option will outperform another. The performance of the investment options are generally dependent on economic conditions, investment management, taxation and superannuation laws.

FURTHER INVESTMENT INFORMATION

Not all the investment options are available or applicable to your policy. Please refer to your policy document for the applicable options or contact us for further details. For information on the investment strategies of each investment option available within your product, please refer to the SRF Investment booklet at resolutionlife.com.au/aia/srf-investment-options.

Participating capital guaranteed

Profits are distributed to policy holders through the declaration of bonus rates. No fees are allowed for in the determination of bonus rates. On those policies where the guaranteed rate is higher than the declared rate, the guaranteed rate would apply.

*Participating capital guaranteed investment options do not have explicitly determined asset charges that are applied in the determination of crediting rates. For the purposes of annual disclosure a notional "ICR" is reported in Annual Statements which is calculated based on the distribution of shareholder profits for the relevant year.

Non-participating capital guaranteed

On those policies where the guaranteed rate is higher than the declared rate, the guaranteed rate would apply.

Financial markets commentary

Performance report as at 31 December 2023

In the quarter ending 31 December 2023 (Q4), the Reserve Bank of Australia delivered one hike to the official cash rate, to 4.35%. Unemployment slightly increased to 3.9% and the Australian Dollar closed the quarter up 2.45% against the US Dollar at 0.6822.

Australian equities recorded a gain of 8.4%. Real estate and information technology were the top performing sectors, whilst the largest detractor was Energy attributed to weaker oil prices over the quarter despite output cuts.

Global equities significantly outperformed Australian and New Zealand equities due to the strong performance of the information technology sector driven by the mega-cap Magnificent 7 stocks and the rise of Artificial Intelligence (AI).

In bond markets, contrary to the previous 2 quarters, all major markets rallied in Q4, marking their best quarterly performance in over 2 decades. Yield on 10-year Australian Commonwealth Government Bonds (-53 bps) closed December below end of September levels at 3.96%. Yields on 10-year Treasuries in the US (- 69 bps) closed December at 3.88%.

In credit market, spreads tightened sharply during Q4 2023, due to the increased investor risk appetite for higher yields and the falling probability of a 2024 recession. 5–10-year USD investment grade corporate bond spreads compressed 31bps over the quarter and 43bps for the year. AUD corporate bond spreads have largely mirrored the global trend of tightening. These spreads continue to trade above USD equivalents, primarily due to AUD swap spreads remaining usually wide by global standards.

Reviewing your investments? We recommend you read the SRF Investment Option Booklet for full information on each investment option including investment strategies and strategic asset allocation. Simply visit resolutionlife.com.au/aia/srf-investment-options.
