What you need to know

Equity Trustees Superannuation Limited ABN 50 055 641 757, AFSL No. 229757, RSE Licence No. L0001458 (Trustee) as trustee of the Super Retirement Fund ABN 40 328 908 469 (Fund) is the issuer of these products. Resolution Life Australasia Limited ABN 84 079 300 379, AFSL No. 233671 (Resolution Life) is the issuer of life insurance policies to the Trustee for these products. The Trustee, as owner of the life insurance policies, will receive the applicable benefit from Resolution Life, and in turn provides the benefit to eligible Fund members.

The information contained in this report is factual information only. It does not contain any financial product advice or make any recommendations about a financial product or service being right for you. Resolution Life and/or the Trustee do not guarantee the performance, the investment options or a particular rate of return. The repayment of capital is not guaranteed, unless expressly stated. Investments in these products are not bank deposits with Resolution Life or any other company in Resolution Life. Past performance is not a reliable indicator of future performance.

The information in this report is based on information available as at the time of production. Resolution Life does not make any representation or warranty as to the accuracy, reliability or completeness of material in this report nor accepts any liability or responsibility for any acts or decisions based on such information. Investment type products are subject to investment risk, including delays in repayment and loss of income and principal invested.

Resolution Life can be contacted via resolutionlife.com.au/contact-us or by calling **1800 007 292**.

About this document:

This document outlines the investment performance for your products within the Super Retirement Fund (SRF).

This document has been prepared for general information only, not having regard to your investment objectives, financial situation or needs. Because of this, you should consider the appropriateness of the information having regard to your own circumstances and the relevant PDS and/or policy terms and schedule. Before making a decision to act on any of this information, it is recommended that you seek financial advice specific to you. You should seek advice from your taxation adviser in relation to taxation matters.

The Quarterly Performance Report for financial products issued by Resolution Life Australasia Limited (for example, deferred annuity, allocated annuity or investment growth bond products) can be found at resolutionlife.com.au.

PERFORMANCE EXPLAINED

Unit-linked products

How we calculate performance

Returns are net of investment option fees and costs, taxes and charges (where applicable). Fees that are deducted directly from members' accounts (such as administration fees) are excluded when calculating performance returns. Performance is calculated on the change in the withdrawal unit prices for the period ended 30 June 2026, corresponding to the investment timeframe indicated.

Individual net returns

Your individual net return may differ from the returns quoted in this report. Your return depends on the timing of transactions such as contributions, withdrawals, switches or unit adjustments during the period and your mix of investment options.

For the price of units on the dates of any deposits, withdrawals or switches (including any investment options you have switched into or out of), please call us on the phone number provided on your annual statement between 9am and 5pm (Sydney time), Monday to Friday, excluding Sydney public holidays.

Past performance is not indicative of future performance

Returns are not guaranteed and past performance is not indicative of future returns. Investments can go up and down and there is no guarantee that one investment option will outperform another. The performance of the investment options are generally dependent on economic conditions, investment management, taxation and superannuation laws.

Whole of Life and Endowment policies

Annual bonuses are additional to the sum insured and are payable under the same conditions as the sum insured. Reversionary bonuses are guaranteed once declared and added to the policy. Terminal bonuses are not guaranteed and they can increase, decrease, or be removed depending on investment performance. The face value of bonuses are paid on death or maturity and are calculated per calendar year. Bonuses are worth less than their face value if cashed in early.

A smoothing methodology is used when calculating bonuses each year. The rationale for this is to produce declared bonus rates that are less volatile than the underlying investments. To achieve this, when the returns from the underlying investments are high, some of these returns will be retained and not included in the bonus declaration for that year, in order to provide a buffer if investment returns deteriorate. In times of low investment returns, these buffer amounts can then be drawn on to declare a higher bonus amount than would have been possible, if based solely on the returns of the underlying investments.

FURTHER INVESTMENT INFORMATION

Not all the investment options are available or applicable to your policy. Please refer to your policy document for the applicable options or contact us for further details. For information on the investment strategies of each investment option available within your product or the fees and costs, please refer to the Investment options (SRF) report or Fees & costs document at resolutionlife.com.au.

Participating capital guaranteed

Profits are distributed to policy holders through the declaration of bonus rates. No fees are allowed for in the determination of bonus rates. On those policies where the guaranteed rate is higher than the declared rate, the guaranteed rate would apply.

*Participating capital guaranteed investment options do not have explicitly determined asset charges that are applied in the determination of crediting rates. For the purposes of annual disclosure, a notional "ICR" is reported in Annual

Statements which is calculated based on the distribution of shareholder profits for the relevant year.

Non-participating capital guaranteed

On those policies where the guaranteed rate is higher than the declared rate, the guaranteed rate would apply.

IMPORTANT NOTE

Updates to investment options

We regularly review investment options to ensure they meet members' needs and may add, temporarily suspend, close, terminate and/or switch your investment into another option of similar risk/return profile. Changes to investment managers including risk profiles can be made without prior notice. You will be informed of any significant changes.
